

Love Will Fill The Silence

When voices echo in memories,
Noises are shadows in empty streets,
When footsteps fade into dreams,
Listen with me ...

***Trust is the rhythm,
Strength the key,
Care is the chorus,
Hope the melody.***

***When it seems like the music has stopped,
And we need a song to guide us,
Listen to love,
Love will fill the silence.***

*Love, love, love
Love will fill the silence, listen to love ...
Love, love, love
Love will fill the silence, listen to love ...
Love, love, love
Love will fill the silence, listen to love ...
Love, love, love*

When hush falls, when lights go dark,
Together, our claps will start,
With a wave of sound, we'll rise up, and play our part,
Hear in our hearts ...

***Trust is the rhythm,
Strength the key,
Care is the chorus,
Hope the melody.***

***When it seems like the music has stopped,
Play the song we've got inside us,
Listen to love, listen to love, listen to love,
Love will fill the silence.***
