

CREATE YOUR OWN DINOSAUR!

Colour in the dinosaurs that we sing about in the Dinosaurs song:

1. Pterodactyl
2. Stegosaurus
3. Velociraptor
4. T-Rex
5. Diplodocus

- Then cut them out and cut them up, each into three parts – head/neck, body and tail.
- Mix the parts up and create a brand new dinosaur species – e.g. head from t-rex, body from pterodactyl and tail from stegosaurus.
- Put these parts together and glue them onto a new sheet of paper and Bingo! – you've created a brand new dinosaur!
