Throughout the year a range of Performance events will be programmed according to need and circumstance. Some events may involve a small participation charge (e.g. Christmas Festival (KS2) - £50 per school, plus optional support visit £50) – more details will be published when they are known.

Music in Schools

The Music Hub is acutely aware of the pressures facing schools now and in the planning for the new academic year, but we can be helpful to schools in a number of ways. We are a LA service with a team of **qualified teachers** and **music professionals** who are **committed to supporting schools** in delivering a **rounded curriculum**, and in **supporting the music education development** for all pupils.

We believe that the Music Hub can help every school in the delivery of music education in the curriculum, and in extra-curricular activity. We **believe** that music can be an **integral part** of your **school's life** and that it can be a **vehicle for helping rebuild** the **wider school community** following the pandemic.

In the coming academic year, the Music Hub is able to support the curriculum delivery with advice on **Deep Dives**, **broadening** the curriculum, and **diversifying the curriculum**.

In addition, our services can **directly support pupil mental health** and **wellbeing** with a **range of programmes** that schools can engage with. Schools may consider using commissioning money for musical activity.

We offer a large **range of free opportunities** delivered by ourselves and through our varied partner organisations, and also a **set of full traded services** – see previous page for details.

We are **committed** to having a **positive relationship with every setting** in some way and would encourage your school to look at the opportunities and services that we can provide.

Timeline

We are launching the 2021-22 academic year programme to schools in February 2021. This is the time when schools can make a commitment to their music provision for the coming academic year. We ask that all school provision requests are submitted to the Music Hub by 31st March 2021. This will allow time to properly plan the arrangements for September.

We strongly encourage all schools to engage with the Music Hub in some way so that together we can collectively make the best use of the skills and opportunities for the benefit of school communities and pupils.

Funding for Music Education

The Department for Education (DfE) funds Music Education Hubs (MEHs) in England, with the Arts Council England (ACE) acting as the fund holder.

The DfE/ACE specify that the funding for MEHs **augments and support schools' music curriculum** provision.

It is for each school to devise a broad, balanced and relevant music curriculum that meets the needs of all its learners. Therefore, schools and MEHs should work together to offer a joined up and positive musical learning experience for pupils, the school community and teachers.
