

## groove'n'play - About

**groove 'n' play GnP vocal and instrumental programmes provide a music curriculum** that supports musical progression in line with the National Curriculum for Music and includes:

- performance through playing and singing (sticks & songs, multi-instrumental programmes)
- reading and playing from notation with an understanding of the inter-related music dimensions e.g. dynamics, tempo, structure
- range of music styles, genres and traditions to increase knowledge and understanding of music
- extended listening and extension activities related to music and other curriculum areas

The high-quality curricular resources are intended to support the development of a child's musical talents and skills as performer, creator and listener. This is achieved through the scaffolded learning that groove 'n' play classroom programmes provide.

Children will be able to:

- understand and demonstrate initial instrumental and playing technique
- sing in a range of musical styles both in unison and parts (sticks & songs, multi-instrumental programmes)
- respond to musical directions and notation linking sound and symbol
- perform as part of a whole-class ensemble

Children will also:

- develop their ability to work effectively as part of a team
- build increased confidence and self-esteem through engagement in varied activities and performance
- gain experience in how to attain high standards of performance and an improved understanding of the process and the work that is necessary in order to achieve this

Through self-evaluation, analysis and increased musical understanding each child is supported to reach the attainable and challenging goals.

## groove@school - The online digital platform
